

## Rechargeable lead-acid battery 7.5Ah/12V

### ZS-7.5

|                                     |                                                                                           |
|-------------------------------------|-------------------------------------------------------------------------------------------|
| Nominal voltage                     | 12V                                                                                       |
| Capacity                            | 7.5 Ah                                                                                    |
| Dimensions (Height x Width x Depth) | 94+6 x 151 x 65mm                                                                         |
| Weight                              | 2.37 kg                                                                                   |
| Internal resistance                 | ~ 25mΩ (when battery is charged)                                                          |
| Maximum discharge current           | 115 A (5s)                                                                                |
| Voltage charge [25°C]               | Standby use: from 13.38 V to 13.8 V (-20mV°C), Cycle use: from 14.4 V to 14.7 V (-30mV°C) |
| Maximum charging current            | 3 A                                                                                       |
