

## Rechargeable lead-acid battery 65Ah/12V

### ZS-65

|                                     |                                                                                           |
|-------------------------------------|-------------------------------------------------------------------------------------------|
| Nominal voltage                     | 12V                                                                                       |
| Capacity                            | 65 Ah                                                                                     |
| Dimensions (Height x Width x Depth) | 179 x 350 x 167mm                                                                         |
| Weight                              | 19.1 kg                                                                                   |
| Internal resistance                 | ~ 6.8mΩ (when battery is charged)                                                         |
| Maximum discharge current           | 780 A (5s)                                                                                |
| Voltage charge [25°C]               | Standby use: from 13.2 V to 13.68 V (-20mV°C), Cycle use: from 14.4 V to 14.7 V (-30mV°C) |
| Maximum charging current            | 26 A                                                                                      |
