

Surge Protector

NVS-021PS

GENERAL

|             |                                   |
|-------------|-----------------------------------|
| Device Type | Low Voltage Power Surge Protector |
|-------------|-----------------------------------|

POWER PROTECTION

|                                       |                  |
|---------------------------------------|------------------|
| Continuous Operating Voltage          | 24 V             |
| Max Voltage Operating                 | 36 V             |
| Nominal Discharging Current (8/20 μs) | 5 kA             |
| Max Discharging Current (8/20 μs)     | 10 kA            |
| Limit Voltage                         | <80 V (10/700μs) |
| Rated Overload Current                | ≤10 A            |
| Leakage Current                       | ≤5 μA            |
| Response Time                         | ≤25ns            |

INSTALLATION PARAMETERS

|                       |                           |
|-----------------------|---------------------------|
| Operating Temperature | -20°C ~ 55°C              |
| Dimensions (mm)       | 108 (W) x 66 (H) x 28 (L) |
| Case                  | aluminium, black          |
