Integrated access controller

KDH-KAB200U-IVORY

The KDH-KAB200U-IVORY/BLACK is a single door wireless access control, consists of a wireless keypad, a mini controller and a wireless exit button. TEA + Rolling Code of encryption algorithm and the split design guarantees higher- secure. The keypad can store 500 PIN / card users. Because of ultra low power consumption, the keypad and the exit button can work as long as one year (bases on 30 times/day), with just 3 units of AAA batteries and 1 unit Li-battery. It will remind people to replace batteries intelligently if low battery.

Doors	1
User identification mode	card, card + pin, cart or pin
Card buffer	500
Card reading standard	UNIQUE
Frequency	125 kHz
Read range	4 - 8 cm
PIN length	4 - 8
Inputs	exit button
Outputs	lock
Anti-Passback	no
Interlock	no
Tamper	no
Latch mode	yes
Supply power	12 VDC
Weight	250 g
Humidity (non-condensing)	0% - 85%
Temperature range	0 to 60 °C
Dimensions (mm)	135 x 54 x 19
