

## EXIT BUTTON

### KDH-EXIT1096

The KDH-EXIT buttons are designed for operation in access control systems. They are structurally designed for surface mounting on different profiles. They have C / NO / NC contacts. Diverse cases and colors predispose them to be mounted on different surfaces. Durable mechanical structure guarantees reliable operation.

KDH-EXIT1096 is a touch button - electronically controlled. For surface mounting. The button requires 12V power supply

|                                                   |                 |
|---------------------------------------------------|-----------------|
| Contact type                                      | NO / NC / C     |
| Dimensions                                        | 86 x 86 x 42 mm |
| Type of assembly                                  | surface         |
| Producer                                          | KADE            |
| Temperature range                                 | 0 to 55         |
| Electronically controlled (required power supply) | yes             |
| capacity                                          | 3A / 30VDC      |
