IP Set

NV-WIFISET-1

KEY FEATURES

1080p Resolution

CREATE IP MONITORING SYSTEM!

By purchasing a set consisting of a recorder and four WiFi cameras, you will receive:
• pre-configured IP recorder - after connecting the power supply to the cameras and the recorder, the device receives and records the image;
• 1 TB hard disk;
• cooperation option of the recorder with mobile software, available on Android and iOS platforms;
• cameras that allow effective observation both day and night - thanks to built-in infrared illuminators;
• an image from the recorder in Full HD resolution;

Set contains:
