

Net I/O Module

KDH-V1000/IOM

Device Type	Net I/O Module
Analog input / output	5 / -
Digital input / output	4 / 6
Relay output	1 x 10 A / 240 VAC (permanently assigned to digital output nr 1)
Network Interface	1 x Ethernet - RJ-45 interface, 10 Mbps
Power Supply	8 ~ 55 VDC
Power Consumption	1 W
Operating Temperature	-20°C ~ 85°C
Weight	50 g
Dimensions (mm)	68 (L) x 76 (W) x 40 (H)

Only AAT SYSTEMY BEZPIECZEŃSTWA sp. z o.o. company devices works with VENIO software. In spite of that relay can switch AC voltage 240 VAC 10A, board itself is not designed to work with this voltage and current.
