

Net I/O Module

LANKON-008

Device Type	Net I/O Module
Analog input / output	6 / -
Digital input / output	4 / 4
Relay output	1 x 10 A / 255 VAC
Network Interface	1 x Ethernet - RJ-45 interface, 10 Mbps
Power Supply	8 ~ 55 VDC, PoE (802.3af)
Power Consumption	0.5 W
Operating Temperature	-30°C ~ 85°C
Weight	50 g
Dimensions (mm)	68 (L) x 66 (W) x 44 (H)

In spite of that relay can switch AC voltage 240 VAC 10A, board itself is not designed to work with this voltage and current.
