PoE 24 V Power Supply

NVE-SV100

NVE-SV100 PoE power adapter is designed to work with the NVE-EPV101KPWIFI entrance panel. Thanks to the PoE 24V technology, it is an ideal solution where it is impossible to lay an additional power supply cable. On the other hand, the LAN port is used to communicate the panel with other system devices.

Included:

- PoE 24 V Power Supply

- supply cable

- short manual

Device type	Adapter zasilania PoE 24 V
Continuous power	12W
Input voltage	~100/240V @0,6A 50-60Hz
Protection	Overvoltage, Overload, Short circuit
Output Voltage	24VDC
Port LAN	1 x 10M / 100M Ethernet
Additional functions	LED
Dimensions	47 x 93 x 30 mm
Weight	98g
Operating temperature	from 0 to 40 °C
