Power Adapter

NVE-PV100

NVE-PV100 power supply is a device designed to power the all elements of the 100 series system. The 15V DC output voltage will power both entrance panels and users monitors. The impulse converter guarantees the economical operation of the device. Several types of security measures guarantee safe operation.

Included:

- Power adapter

- short manual

Device type	Zasilacz impulsowy
Continuous power	12W
Input voltage	~100/240V @0,6A 50-60Hz
Protection	Overvoltage, Overload, Short circuit
Output Voltage	15VDC
Dimensions	41 x 59 x 27 mm
Operating temperature	from 0 to 45 °C
