

## Switched-mode power supply for built-in

### LRS-100-24

The switched-mode AC/DC power supply is designed to be built-in. The PSU is designed to supply cameras or other devices requiring stabilized voltage of 24V DC and total efficiency of 4.5A.

#### TECHNICAL SPECIFICATIONS:

- power output 24V DC / 4.5A
- supply voltage 85 - 264V AC
- security:
  - short circuit protection SCP
  - overload OLP
  - thermal OHP
  - overvoltage protection OVP

#### MECHANICAL & ENVIROMENTAL:

- working temperature  $-30^{\circ}\text{C} \div 70^{\circ}\text{C}$
- dimensions 129x97x30mm (LxWxH)
