

## Switched-mode power supply for built-in

LRS-100-24

 $\bigotimes$ 

The switched-mode AC/DC power supply is designed to be built-in. The PSU is designed to supply cameras or other devices requiring stabilized voltage of 24V DC and total efficiency of 4.5A.

## **TECHNICAL SPECIFICATIONS:**

- power output 24V DC / 4.5A
- supply voltage 85 264V AC
- security:

short circuit protection SCP overload OLP thermal OHP overvoltage protection OVP

## **MECHANICAL & ENVIROMENTAL:**

- working temperature -30  $^{\circ}$  C  $\div$  70  $^{\circ}$  C
- dimensions 129x97x30mm (LxWxH)
