

Switched-mode power supply for built-in

RS-100-24

The switched-mode AC/DC power supply is designed to be built-in. The PSU is designed to supply cameras or other devices requiring stabilized voltage of 24V DC and total efficiency of 4.5A.

TECHNICAL SPECIFICATIONS:

- power output 24V DC / 4.5A
- supply voltage 88 264V AC
- security:

short circuit protection SCP overload OLP thermal OHP overvoltage protection OVP

MECHANICAL & ENVIROMENTAL:

- working temperature -25°C ÷ 70°C
- dimensions 159x97x38mm (LxWxH)
