The recorder is dedicated to work with AHD cameras, Novus 4000 series IP cameras and achieves the best functionality with them. The availability of individual functions (including image analysis) depends on the model of the cameras used, as well as the software version of the recorder and cameras.

In order to create face recognition system, please deploy NOVUS 4000 series IP cameras with "F" in the model name.

Presented display and playback speeds are achieved using dual-streaming. Detailed data on hard drives can be found in the compatibility table available in the DOWNLOADABLE FILES tab.

The recording speed of analog cameras may be limited during playback.
